

N6

The new
compact
6-axis robot

EPSON[®]
EXCEED YOUR VISION

N6

Our heritage in small parts assembly and handling, combined with expertise in high-speed, precision robotics has allowed us to design a revolutionary solution that fits seamlessly into any factory environment.

Reduce your working area

Small footprint and unique folding arm mechanism.

Speed up your production

High levels of dexterity and agility help eliminate any unnecessary travel and shorten cycle times.

Reach higher and further

A 1,000mm reach ensures payloads can be collected, manipulated and delivered over a wider area.

Handle heavier objects

Manoeuvre and transport and payloads of up to 6kg with greater precision and productivity.
